Négyévszakos

The image shows a standard EU energy label for tires, adapted for Michelin. At the top left is the European Union flag. To its right is the word "ENERGY" in a bold, blue font with a lightning bolt symbol. Further right is a QR code. Below the flag and "ENERGY" text, the brand name "MICHELIN" is printed on the left and the number "990565" on the right. Below this, the tire size "215/55R18 95 H" is printed on the left and the tread pattern "C1" on the right. The main body of the label is divided into two vertical sections. The left section is for fuel consumption, featuring a gas pump icon and a vertical scale of five colored arrows labeled A (green), B (light green), C (yellow), D (orange), and E (red). A black arrow points to the 'A' grade. The right section is for wet grip, featuring a tire icon on a wet surface with rain clouds and a vertical scale of five blue arrows labeled A, B, C, D, and E. A black arrow points to the 'B' grade. At the bottom left, there is a noise level icon showing a speaker and a tire, with the text "72 dB" and "ABC" below it. To the right of the noise icon is a snowflake icon inside a triangle, indicating winter performance. On the far right, the date "2020/740" is printed vertically.
